

All That Ends

Eli Conley

Maybe we'll die of cancer
Or we'll die of old age
Maybe we'll go like a wrecking ball
We'll drop dead in a rage
Maybe we'll hold each other
till the sweet and solemn end
Maybe we'll just give in

I don't know 'bout you, but I would love to see 85
I hope I can still drive but it's all right if I can't
I don't know what you see
when you look at me that way
Are you looking at today or at tomorrow?
There's always tomorrow

Maybe we'll die of alcohol
Or World War III
Maybe the revolution'll come
But they'll put poison in our tea
The only thing I know for sure
Is when we go it's not for good
Look for me out in the woods

I don't know bout you, but I would love to see 75
Go out for a drive along the ocean
There's always the ocean

Maybe the ozone'll open up
and we'll all go to our graves
Maybe we'll end this mess we're in
I believe we can still be saved
I'm not afraid of death anymore
Like I was when I was three
Cause all that ends with death is me

I don't know 'bout you, but I would love to see 65
I hope I have the drive to keep singing these songs
I don't know what you see
when you look at me that way
Are you looking at today or at tomorrow?
There's always tomorrow
Until we fade
